PLANT CITY - A hospital and a nonprofit organization were among the winners Thursday at the annual Plant City Businesses of the Year banquet.

The awards were based on such factors as growth and community involvement. The Economic Development Council of the Greater Plant City Chamber of Commerce sponsors the presentations, now in their 14th year.

Here are the 2006 winners: Boggs & Butcher Engineering, LLC, growing business of the year; Central Florida Custom Homes Inc., small business of the year; A. Camacho Inc., mid-size business of the year; South Florida Baptist Hospital, large business of the year; and nonprofit Plant City Photo Archives, special business award for exemplary community contributions.
